FRONT END DEVELOPER

- **A results-focused front-end developer with 5+ years of experience in providing project leadership and hands-on technical expertise for the end-to-end design and delivery of innovative, high-impact web and email solutions for a diverse clientele.**

- **Proven success in using Agile and Scrum methodologies to effectively manage and streamline the entire development lifecycle, enabling seamless, on-time, and on-budget delivery of customer-centric solutions in fast-paced environments.**

- **Track record of leveraging best-in-class new technologies to drive continuous improvement in solutions development, resulting in clean, well-structured code that enables the delivery of high-quality, responsive, and customized solutions.**

CORE COMPETENCIES

Cross-Functional Collaboration │ Web Development │ Troubleshooting │ Quality Assurance │ WordPress Theme Development │ Client Relations │ Application Testing │ Process Redesign and Optimization │ Email Development │ Lean/Agile Methodologies │ Product Development │ Quality Assurance and Control │ Object-Oriented Programming │ CRM │ Team Training and Management

CAREER HIGHLIGHTS

- **Achieved a 24% increase in response rate** by developing a Chase email at Bandujo Advertising while **utilizing Photoshop and Sketch to convert a design into custom and pixel-perfect emails.**

- **Designed a website template to improve productivity in development** at Bandujo Advertising in addition to **decreasing costs** by collaborating with a contractor to transfer from several domain and server vendors to AWS.

- **Built a website from the ground up for Voting NYC within a short time frame (1 week)** as the sole developer at Bandujo Advertising, ensuring on-time and on-budget delivery.

- **Developed a landing page, within a week, for the NYC government relating to NYC Secure** (a mobile app providing information to residents about potential cyber threats to their mobile devices and tablets) while at Bandujo Advertising.

PROFESSIONAL EXPERIENCE

BANDUJO ADVERTISING + DESIGN, New York, NY

Front End Developer   2017 to Present

- Create and design custom, responsive emails and websites utilizing Photoshop and Sketch in addition to developing custom, responsive landing pages using Unbounce and Salesforce.

- Design custom, responsive landing pages from the ground-up, test websites for cross-browser compatibility, maintain landing pages up to date each quarter, and utilize Git for version control and Gulp for task automation.

HUEMOR DESIGNS, Farmingdale, NY

Front End Web Developer / Front End Developer Intern   2015 to 2017

- Developed 10 custom, responsive, pixel-perfect websites using Photoshop, Sketch, and Invision in addition to collaborating with team members on numerous projects.

- Altered and refined product features throughout the quality assurance, client testing, and post-implementation stages to ensure the integrity of features.

- Participated in code reviews, installed plugins to suit client requirements, and supported new team members in understanding company procedures/techniques by providing comprehensive training.

MEDNET TECHNOLOGIES, Melville, NY

Front End Web Developer Intern   2015

- Played an integral role in filling client web pages to boost corporate brand and website traffic, in addition to editing images for web pages with strict adherence to detail.
