LEAH GAZES

FRONT END DEVELOPER
Web Development

☑ Selected Highlights

- Collaborated closely with team members on multiple projects, contributing to a cohesive and successful development process
- Showcased problem-solving skills by making technical decisions and implementing changes throughout quality assurance, client testing, and post-implementation to maintain feature integrity
- Maintained a keen eye for detail, consistently delivering high-quality deliverables within tight deadlines.
- Facilitated the onboarding process for new team members, assisting them in adapting to company processes and techniques.

💼 Professional Experience

2021 – 2023 | **Genuine**
Front End Developer

- Translated design concepts into engaging, responsive websites by leveraging Sketch, InVision, and Figma.
- Demonstrated expertise in building custom, responsive web components and pages from scratch using the company's proprietary architecture.
- Collaborated effectively with a team of developers to tackle complex challenges and deliver solutions that met client requirements.
- Utilized Git for efficient version control and leveraged Gulp for seamless task automation.
- Leveraged the power of Docker and Docksal for streamlined local development processes.

2017 – 2021 | **Bandujo Advertising + Design**
Front End Developer

- Developed custom, responsive landing pages using Unbounce and Salesforce, effectively capturing leads and driving conversions.
- Utilized expertise in HTML, CSS, and JavaScript to build high-quality landing pages from scratch, ensuring optimal user experiences and adherence to design specifications
- Conducted thorough testing and troubleshooting to identify and resolve any issues related to functionality, responsiveness, and compatibility.
- Successfully maintained and updated landing pages on a quarterly basis, ensuring their relevance and effectiveness.
- Worked closely with cross-functional teams to coordinate and prioritize updates based on marketing campaigns and business objectives.
- Utilized A/B testing methodologies and data-driven insights to drive continuous improvements and optimize landing page performance.

PROFESSIONAL EXPERIENCE

2015 – 2017 | **Huemor Designs,** *Farmingdale, NY*

Front End Web Developer   *2016 – 2017*

Front End Web Developer Intern   *2015 – 2016*

- Demonstrated proficiency in leveraging industry-leading design tools, including Photoshop, Sketch, and InVision, to craft and develop bespoke websites with a strong emphasis on responsiveness and pixel-perfect precision.
- Conducted rigorous cross-browser compatibility testing to ensure optimal functionality and user experience across various web platforms.
- Demonstrated a strong ability to collaborate effectively with team members across various projects, fostering a cohesive and productive working environment
- Made technical decisions and changes during quality assurance, client testing, and post implementation to ensure integrity of features.
- Demonstrated proficiency in developing and customizing WordPress themes from scratch using the company's proprietary architecture.
- Collaborated closely with colleagues to ensure adherence to coding best practices, industry standards, and project requirements during the code review process.
- Utilized Git for efficient version control and leveraged Gulp for seamless task automation.
- Successfully installed and leveraged plugins to meet specific client requirements, enhancing the functionality and customization of web projects.
- Provided guidance and mentorship to new team members, sharing knowledge and insights to help them quickly understand and adapt to the company's established practices and workflows.

2015 | **MedNet Technologies,** *Melville, NY*

Front End Web Developer Intern

- Populated web pages with client approved content.
- Utilized Photoshop to enhance and retouch images, while maintaining a consistent visual style for websites.
